Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 18 and 21 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The recitation of the second silicon nitride layers being removed by etching so as not to exist on the source/drain diffusion layers sets forth structure not supported by the application. Applicant is requested to point out exactly wherein the application that provides such support. The disclosure clearly discloses the second silicon nitride layer 11 being removed by etching so that the source/drain diffusion layers (7a, 7b) are exposed. However, a portion of the second silicon nitride layer 11 still remains and exists on the source/drain diffusion layers (7a, 7b) as shown in Fig. 2a which is contradicting with the claimed structure wherein the second silicon nitride layer 11 being removed so as not to exist on the source/drain diffusion layers 7a, 7b.

Response to Arguments

Applicant's arguments filed 06/02/2003 have been fully considered but they are not persuasive. Applicant did not provide convincing evidence to support the limitation recited in the claim as mentioned above. In fact, evidence which applicant pointed out

all shows the second silicon nitride layer 11 formed on the source/drain diffusion layers while the structure as claimed requires the second silicon nitride layer 11 being removed so as the layer not to exist on the source/drain diffusion layers 11.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
